ICCX Central Europe 2023

The ICCX Central Europe is approaching and will soon take place for the ninth time already. On 8 and 9 March 2023, the conference hotel Double Tree by Hilton Hotel & Conference in Warsaw will once again be the focal point for the Central European concrete industry. As usual, participants can look forward to a large trade exhibition and an extremely interesting conference programme, designed to cover latest developments that are of specific interest to the local and regional industry. Probably the dominant topic at the moment is the events in Ukraine - also related to all the effects on the rest of the world and the other Central European countries in particular. Thus, the opening lecture by Prof. Mykola Savvitskyi, Rector of the State Academy of Civil Engineering and Architecture in Dnipro in Ukraine, will undoubtedly generate lively interest among the participants. He will talk about the current situation of the construction industry in Ukraine and the opportunities arising for foreign companies as soon as this conflict hopefully comes to an end. It is certain that Ukraine will not be able to cope with reconstruction on its own. This requires not only financial, but also professional assistance – including assistance from the international construction industry.

Venue

Relax and unwind at DoubleTree by Hilton Hotel & Conference Centre Warsaw. Enjoy the scenic surroundings, overlooking our park and pond, in a quiet area of Warsaw just 25 minutes from Warsaw Chopin Airport (WAW) and 20 minutes from the city center. Choose from an array of stylish accommodations, including deluxe rooms, suites, executive rooms, and guest rooms - all with complimentary WiFi. Offering the perfect combination of world-class conference facilities and leisure amenities, this Warsaw hotel is ideal for both business trips and spa getaways. Host a large conference, important business meeting, or spectacular celebration in the hotel's 54,000 sq. ft. of flexible event space. Choose the magnificent Universe Ballroom for up to 2000 guests.

Dine for breakfast, lunch, and dinner at Garden Restaurant offering splendid views over the park and pond. Gather for drinks in the sophisticated Lobby Bar or unwind in the Zazen Entertainment Lounge. Special Congress rates for overnight stays have been negotiated with the hotel for ICCX Central Europe visitors. Please indicate that you are a visitor of ICCX Central Europe when making your room reservations.

The standard room rate for ICCX Central Europe visitors is 400 zł/night, plus 8% tax. This price includes breakfast as well as admission to the spa area with a sauna, jacuzzi, and swimming pool. Double rooms are 465zł/night, plus 8% tax incl. the same services as the standard room. Early booking is recommended, as the number of special rate rooms is limited. Please book via this weblink to get the Special ICCX Conference Rates for your stay in the DoubleTree by Hilton Hotel & Conference Centre Warsaw.

Date March 08-09, 2023

Visitor 600+ concrete professionals

Time* **March 08, 2023**

Opening hours 09:00 - 18:00

Conference 10:00 - 16:00

Evening Event 19:00 - 22:00

March 09, 2023

Opening hours 09:00 - 17:00

Conference 10:00 - 16:00

*Changes reserved

Comprehensive Conference Program

Following the opening lecture, the participants of ICCX CE 2023 are presented with a comprehensive technical conference programme. Examples of conference themes include the development of reinforced lightweight concrete, housing construction with special precast concrete elements, concrete pipes manufactured without cement and with significantly increased acid resistance, concrete paving blocks made from recycled constituent materials, and the development of a new experimental block forming machine for researching sustainable products on an industrial scale.

08.03.2023 Opening Session

- 10:00 - 12:00  UKR **Prof. Prof. Mykola Savytskyi**
The state of the construction industry in Ukraine and promising directions for its development
-  SWE **Mr. Simon Grundman**
Implementation of construction projects in Scandinavia and evaluation of investments
-  POL **Mr. Tadeusz Wasąg**
Dr. Maciej Gruszczyński
Situation of raw material procurement in Poland and the impact on availability for the concrete industry

08.03.2023 Materials and Innovations

- 14:00 - 16:00  POL **Prof. Prof. Zbyszek Giergiczny**
Cement industry vs. sustainable development
-  GER **Mr. Dr. Stephan Uebachs**
Cementless concrete wastewater systems with very high resistance to chemical attack
-  GER **Mr. Max Ramm**
Development of rc lightweight concrete on the basis of synthetic aggregates

All lectures will be interpreted simultaneously  

09.03.2023 Precast Elements

- 10:00 – 12:00  POL **Mr. Wojciech Kurpiński**
A new era of prefabrication
-  POL **Mr. Krzysztof Wąchalski**
New material solution for „optem-arch”
prefabricated arch shell system.
-  LUX **Mr. Ronald Klein-Holte**
Sustainability of precast concrete flooring
solutions

09.03.2023 Concrete Products

- 14:00 – 16:00  GER **Mr. Dr. Alexander Wetzel**
Paving stones from 100% recycled raw
materials
-  GER **Mr. Thomas Roske**
Developing sustainable products on
an industrial scale with new experimental
block-making machine
-  POL **Mr. Tomasz Męczkowski**
Innovative solutions in concrete product
plants

ICCX Central Europe 2023 Exhibitors

Alongside the exciting conference program, the ICCX Central Europe will once again be able to offer an extensive trade exhibition with international suppliers to the concrete industry. Here too, the focus will be on the latest solutions and products.
