

ICCXTÜRKIYE 2026

INTERNATIONAL CONCRETE CONFERENCE & EXHIBITION

Istanbul, Türkiye | 13-14 May 2026

ICCXTürkiye 2026: Register for your attendance

The ICCX event series (International Concrete Conference & Exhibition) is coming to Türkiye for the first time in 2026!

Türkiye's construction industry is a key driver of economic growth and one of the most dynamic markets for infrastructure, housing, and industrial development.

Large-scale transport projects, urban renewal programs, post-earthquake reconstruction, and the transition toward low-carbon building materials are shaping the sector's future. ICCX Türkiye 2026 directly reflects this momentum.

The inaugural ICCX event in Istanbul combines a high-level interdisciplinary conference with a targeted international trade exhibition. Recognized experts will deliver practice-oriented presentations on concrete production, precast concrete solutions, plant engineering, digitalization, sustainability, and decarbonization strategies. Dedicated sessions focus on earthquake-resistant construction, precast concrete technology, and autoclaved aerated concrete as efficient and resilient solutions for modern building demands.

Around 50 international exhibitors will present advanced machinery, innovative materials, intelligent production and testing systems, and construction chemicals – creating a strong link between technical expertise and practical implementation.

Supported by leading Turkish industry associations and global technology partners, ICCX Türkiye provides a strategic platform for planners, engineers, concrete and precast concrete manufacturers, investors, and decision-makers seeking valuable knowledge, business opportunities, and international exchange.

Be part of the premiere edition of this unique event.

Register today – ICCX Türkiye 2026 awaits you!

What you can expect

- Two-day specialist programme with top-class international and regional speakers
- Cutting-edge topics relating to prefabrication, building materials technology and a focus on earthquake-proof construction
- Accompanying trade exhibition of leading suppliers in the industry
- Excellent networking opportunities with experts from Türkiye, Europe, the Middle East and Central Asia
- A platform for innovation and new business relationships

Constantly updated information for visitors and exhibitors can now be found on the event website.

The event is organised by ad-media GmbH in cooperation with local and international partners.

CONFERENCE PROGRAM

May 13 Keynote Speeches

- 09:30 – 09:40  GER Dr. Holger Karutz
Opening Speech
- 09:40 – 10:05  TUR Prof. Alper Ilki
Seismic construction with precast concrete elements – lessons learned
- 10:05 – 10:25  POL Robert Turski
Challenges and opportunities for tomorrow's construction industry – advantages of autoclaved aerated concrete
- 10:25 – 10:45  GER Dr. Aref Al-Swaidani
Precast concrete as a key to Syria's reconstruction: Challenges and perspectives

May 13 Session: Precast Technology in Seismic Construction

- 11:00 – 11:30  BEL Stef Maas
Advantage Precast & fib handbook
- 11:30 – 12:00  TUR Prof. Baris Binici
Seismic performance of precast concrete buildings: Current status and future prospects
- 12:00 – 12:30  TUR Seyit Ismail Ulusoy
Best practice with precast concrete construction in Türkiye
- 12:30 – 13:00  TUR Gürol Gerzile
Design, production and construction of earthquake-resistant buildings with prefabricated double-wall elements

May 13 Concrete Technology Workshop

- 13:50 – 14:00  TUR Lyksor – Innovation & Trust
Platinum Sponsor Presentation
- 14:00 – 16:00  RSA Prof. Hans Beushausen
 NZL Dr. James Mackechnie
Optimizing Performance, Durability, Sustainability, Quality Control, and Cost

CONFERENCE PROGRAM

May 14

Performance Design of Precast Concrete Elements and Concrete Products

- 09:50 – 10:00  TUR Liya Laboratuvar Test Cihazlari
Gold Sponsor Presentation
- 10:00 – 10:30  SUI Prof. Jürgen Oecknick
Raw material optimisation for concrete pavement manufacturing – Case study from Germany
- 10:30 – 11:00  TUR Prof. Dr. Kambiz Ramyar
Corrosion and protection of steel reinforcement in concrete
- 11:00 – 11:30  RSA Prof. Hans Beushausen
Sustainability optimisation through locally available by-products in concrete product manufacturing

May 14

Autoclaved Aerated Concrete

- 13:50 – 14:00  TUR Fethi Hinginar
Welcoming Words
- 14:00 – 14:10  CHN Jiangsu Teeyer Intelligent Equipment Co.,LTD
Gold Sponsor Presentation
- 14:10 – 14:30  TUR Tolga Öztoprak
The evolution of the AAC market in Türkiye and key insights from global trends
- 14:30 – 15:15  GER Prof. Christoph Butenweg
Innovative approaches for earthquake-resistant constructions with AAC – part 1
- 14:30 – 15:15  GER Markus Hesse
Innovative approaches for earthquake-resistant constructions with AAC – part 2
- 15:15 – 15:45  GER Dr. Martin Haas
Autoclave management and optimisation
- 15:45 – 16:15  SUI Prof. Jürgen Oecknick
Why and how to control the slurry rheology in AAC production
- 16:15 – 16:30  CHN Yuyang Chen
State-of-the-art handling and construction with AAC panels
